

# MANSOUR QADERI

## SENIOR FULL STACK DEVELOPER

Email: [mansourqaderi21@gmail.com](mailto:mansourqaderi21@gmail.com) | Phone: +93 79 004 9201 | LinkedIn: [linkedin.com/in/mansour-qaderi](https://www.linkedin.com/in/mansour-qaderi) | Portfolio: [mansour-qaderi-portfolio.vercel.app](https://mansour-qaderi-portfolio.vercel.app)

## PROFESSIONAL SUMMARY

Senior Full Stack Developer with 6+ years architecting and leading frontend-heavy web applications across gaming, fintech, media, and enterprise software. Proven track record leading distributed engineering teams, setting technical direction, and shipping scalable, high-performance React/Next.js applications end-to-end. Combines technical depth with team leadership, mentoring developers and partnering with product and design to translate business goals into reliable software.

## PROFESSIONAL EXPERIENCE

### Senior Full Stack Developer

JANUARY 2026 - PRESENT

**Sweatbet** | Remote | Full-time

- Developed a modern 2D game from the ground up, focusing on responsive gameplay, clean UI, and a scalable architecture built for long-term feature expansion.
- Built the frontend using React-based technologies with reusable components and optimized rendering, ensuring smooth performance under real-time interactions.
- Implemented game state management and structured the codebase to support rapid iteration and future feature updates without compromising stability.

### Senior Software Developer

OCTOBER 2023 - JANUARY 2026

**Milestone Technologies** | Muscat, Oman (Remote) | Full-time

- Lead frontend architecture and technical strategy for a team of developers, setting coding standards, conducting code reviews, and driving adoption of scalable engineering practices across the organization.
- Act as technical lead and mentor, coaching engineers on best practices and accelerating their growth while maintaining hands-on ownership of high-impact features.
- Partner directly with cross-functional product, design, and engineering teams to shape product direction and deliver frontend experiences that align with strategic company goals.

### Senior Frontend Developer

AUGUST 2022 - OCTOBER 2023

**TrueTale** | Los Angeles, CA, USA (Remote) | Full-time

- Directed complex UI architecture and technical decision-making to ensure the platform scaled reliably as user traffic and feature complexity grew.
- Mentored a team of frontend developers, instituting code review standards and best practices that improved consistency and reduced production defects.

### Senior Frontend Developer

JANUARY 2022 - JULY 2022

**Data Art** | Herat, Afghanistan | Part-time

- Delivered frontend features and bug fixes on a part-time basis while maintaining the same quality bar as full-time contributors, upholding coding standards across all deliverables.

### Frontend Developer

AUGUST 2020 - JULY 2022

**Microcis** | Herat, Afghanistan | Full-time

- Built and maintained responsive, user-friendly interfaces using modern frontend frameworks, integrating REST APIs with backend systems and resolving performance bottlenecks across key application views.

## TECHNICAL SKILLS

**Languages & Frameworks:** TypeScript, JavaScript (ES6+), React, React Native, Next.js, Remix JS, Node.js, NestJS, Tailwind CSS

**Architecture & Practices:** Monorepo Architecture (Turborepo), REST APIs, GraphQL, E2E Testing, Responsive Design

**Tools & Collaboration:** Git & GitHub, Code Review, Component-Driven Development, Technical Mentorship, Team Leadership

## EDUCATION

### Bachelor's Degree

SEPTEMBER 2018 - DECEMBER 2022

**Herat University** | Herat Province, Afghanistan
